

middle income, or high income. We have to call attention to our economy and the fiscal discipline that we need to implement to get this country back on the right track. Not only are our people suffering but our country is suffering and so is the international economy, and I think that we really need to work together.

As I said before, we want the President and the administration to succeed. We need to find the solution to the problems that we face in this country and our economy, and I think that we stand here ready and willing to help. But we have to do it right. We have to make it happen. And I think that's when we'll all work together, and I would hope that there would be some sort of a summit where we really focus. I think that we are spread out in this first 6 weeks, 7 weeks of an administration in what has been happening in health care and the economy and education and energy and sciences and all the things that we are trying to do at once. I think we need to focus that energy on solving the problems of the economy.
